---

## OBJECTIVE

---

Seeking research and internship opportunities, where I can apply my hard-working ethic and my passion and knowledge that I acquired in the fields of computer programming and engineering. Excited and eager to collaborate with researchers and make meaningful contribution to research programs.

## EDUCATION

---

### Bachelor of Science in Computer Engineering

Anticipated: June 2026

University of California, San Diego (UCSD)

- Relevant Coursework: *Calculus I & II, Discrete Mathematics, Linear Algebra, Java Data Structures and Object-Oriented Design, Software Tools and Techniques Lab, Mathematical Algorithms and System Analysis*

## RESEARCH and WORK EXPERIENCE

---

### Sipchem Summer Camp

August 2021 - July 2021

- Assistant Instructor and Program Facilitator
- Educational program in partnership with BrightUp
- Taught youth about new technologies (Laser cutting, 3D printing, circuit printing, programming, robotics, IOT)
- Assisted in teaching lessons and ensured safety measures were followed
- Gained experience with laser cutting machines, 3D printers, and CNC machines

### NEOM Science Innovation Summit

September 2022 - October 2022

- Research Participant, Mentored by Dr. Mykyta Tretyakov, Ph.D.
- Participated in a research and solution competition
- Proposed a solution for cleaning up nuclear wastes using Metal Organic Frameworks (MOFs)
- Mentored by Dr. Mykyta Tretyakov, Ph.D.
- Presented and defended our proposal before a panel of scientists and researchers.

## AWARDS & HONORS

---

### Provost Honors – UCSD

Fall 2022 – Winter 2023

### Recipient – KAUST Gifted Student Program (KGSP) Scholarship

August 2022 – Present

- KGSP is a prestigious scholarship awarded by the King Abdullah University of Science & Technology (KAUST) a select group of Saudi students, which is allowing me to pursue my Computer Engineering degree in UCSD and then returning to KAUST to complete graduate studies.

## EXTRACURRICULAR ACTIVITIES

---

### NGO, Food co-op, UCSD

September 2023 - Present

- General member in the UCSD Food Co-op, an organization which provides free food for all. The food co-op is a nonprofit organization in UCSD which prepares free vegan inclusive food for everyone on campus on weekdays. I contribute there by helping in the kitchen doing tasks such as preparing food, cleaning, and doing the dishes.

### Volunteer, Community Gardens, UCSD

June 2023 – Present

- Coordinate and promote the creation of sustainable environmental habits on the UCSD campus. I volunteered by collecting compost and helping with the gardening and organizing of the garden.

### Volunteer, Saudi Youth Ambassadors Group (SYAG), Saudi Arabia

September 2021 -Present

- SYAG is a Saudi non-profit organization which connects volunteers with other companies, events, or other non-profits which want volunteers. I have volunteered in several such events, such as a hospital fundraiser and a diabetes awareness event.

## SKILLS

---

**Computer:** Microsoft Office, MATLAB, Java, Python, VIM, C, GitHub, Blender 3D modeling

**Language:** Fluent in Arabic, Fluent in English

**Research:** Statistical Analysis, Interviewing, Social Work
